

SUMMER 2020

PRODUCTION IN THE HAMPTONS

Our Sag Harbor base camp offers full production support and is central to many Hamptons towns. We remain in close contact with local offices regarding permits and safety protocols.

Ms4 has taken the past few months to rediscover what the Hamptons has to offer. Located two hours from New York City, the Hamptons is easily accessible for any production. Drive out for the day, or we can arrange crew accommodations for a multi day shoot.

The following is a sampling of what is in our neighborhood, scouted recently by our location team. We look forward to helping you with your creative vision and exploring the Hamptons with you.
